

## EXHIBIT 4

### **Notification of Reduced Power Operation and Request for Special Temporary Authorization**

NCE Station KDAQ(FM), Shreveport, LA (Facility ID 4317)

Pursuant to Sections 73.1560(d) and 73.1635 of the FCC's Rules, the Board of Supervisors, Louisiana State University and A&M College ("LSU"), licensee of noncommercial educational radio Station KDAQ(FM), Shreveport, Louisiana, notifies the FCC of the temporary reduced power operation of KDAQ and respectfully requests Special Temporary Authorization ("STA") to maintain the reduced power status for more than thirty (30) days.

Station KDAQ has been operating at a reduced power (10% of authorized power levels) since September 15, 2020 in order to accommodate re-stacking work being done on the station's transmitting tower by another broadcaster that utilizes the same site. LSU has not been informed of a scheduled completion date for the tower work, but now expects that KDAQ's reduced power status will need continue for more than thirty (30) days in order to allow for its completion.

A grant of reduced power STA will serve the public interest by allowing the licensee to maintain, without interruption, the station's current noncommercial educational radio operation and programming for its local community while it accommodates the ongoing tower site work on behalf of another broadcaster.

LSU is a governmental entity and station KDAQ is a noncommercial educational station. LSU and KDAQ are therefore exempt from FCC fee requirements pursuant to Sections 1.1116 and 1.1162 of the Commission's Rules.
