Re: WHRG(FM); Gloucester Point, VA
Facility ID No. 173962
Hampton Roads Educational
Telecommunications Assoc., Inc.
BMPED-20101221ABI

Dear Applicant:

The staff has under consideration the request for program test authority and the license application filed March 29, 2011 to cover permit BMPED-20101221ABI. The PTA request included exhibits demonstrating compliance with special operating conditions regarding the directional antenna.

A review of WHRG's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BMPH-20101221ABI, and the provisions of 47 C.F.R. § 73.1690(c)(2). Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on WHRG's license application. The effective radiated power is 9.6 kilowatts (H&V) and the transmitter power output is 1.75 kilowatts.

Sincerely,

Edna V. Prado
