**REPORT AND ORDER  
(Proceeding Terminated)**

**Adopted: March 10, 2004**

**Released: March 12, 2004**

By the Assistant Chief, Audio Division:

1. The Audio Division has before it a *Notice of Proposed Rulemaking* (“*Notice*”)<sup>1</sup> issued at the joint request of Crossroads Investments, Inc., licensee of Station WSDM-FM, Channel 249A, Brazil, Indiana, and Mid-America Radio of Indiana, Inc., licensee of Station WSKT(FM), Channel 224A, Spencer, Indiana (“*Petitioners*”). The *Notice* proposed to substitute Channel 224A for Channel 249A at Brazil and modify the license for Station WSDM-FM accordingly, and to substitute Channel 249A for Channel 224A at Spencer and modify the license of Station WSKT(FM) accordingly. *Petitioners* filed comments reiterating their intention to promptly implement the proposed changes. We received no other comments.<sup>2</sup>

2. We will grant the proposed channel exchange because it will serve the public interest. First, the substitution of Channel 249A for Channel 224A at Spencer will eliminate grandfathered short-spacings between Station WSKT(FM) and Stations WTTS(FM), Bloomington, Indiana, and WJCP(FM), Austin, Indiana, and thus enable Station WSKT(FM) to expand its coverage area. Second, the channel change at Spencer will also allow Station WSKT(FM) to increase power from 1kW at 146 meters HAAT, to maximum Class A facilities at its current site and operate at 6kW and 100 meters HAAT. This change will increase the population Station WSKT(FM) serves from 35,410 persons to 70,163 persons, and the area will increase from 1,606.31 square kilometers to 2,610.62 square kilometers. The substitution of Channel 224A for Channel 249A at Brazil, Indiana will involve no gain or loss of service because it requires no change of site.

3. An engineering analysis has determined that Channel 249A can be allotted to Spencer in compliance with the Commission's minimum distance separation requirements with a site restriction of

<sup>1</sup> *Brazil and Spencer, Indiana*, 18 FCC Rcd (MB 2003).

<sup>2</sup> The *Notice* inadvertently characterized this channel exchange as an “incompatible channel swap” and sought comment on this issue. An incompatible channel swap is limited to upgrades in the class of the station and not the substitution of a Class A channel for another. In the instant case, we recognize that the proposed exchange of channels creates a mutually exclusive relationship which precludes competing expressions of interest in either allotment. No comments were received addressing this issue.

9.5 kilometers (5.9 miles) west of the community at Station WSKT(FM)'s requested site.<sup>3</sup> Additionally, Channel 224A can be allotted to Brazil with a site restriction of 1.8 kilometers (1.1 miles) southwest of the community at Station WSDM-FM's requested site.<sup>4</sup> As requested, we shall also modify the licenses of Stations WSKT (FM) and WSDM-FM to specify operation on Channels 249A and 224A, respectively.
