Program Test Authority

Dear Mr. John Detz:

This letter is in reference to KNUQ-FM's request for program test authority ("PTA") filed January 19, 2010 and the simultaneously filed application for license to cover Construction Permit BPH-20080620AJL. The PTA request included exhibits demonstrating compliance with the special operating conditions regarding the radiofrequency electromagnetic field strength measurements.

A review of KNUQ-FM's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BPH-20080620AJL, and the provisions of 47 C.F.R. Section 73.1620. Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on KNUQ-FM's license application BLH-20100119AAO. The effective radiated power is 100 kW (Horizontal only) and the transmitter power output is 17.0 kilowatts.

Sincerely,
