## **COMPREHENSIVE TECHNICAL EXHIBIT**

**MINOR MODIFICATION TO CONSTRUCTION PERMIT  
W69AD, FCC ID 46730  
FCC FILE NUMBER BPTTL-20060210ABZ  
COMMERCIAL BROADCASTING CORPORATION**

**Minor modification to construction permit, request for displacement relief.** The within application is filed as a minor change to licensed facility, seeking a change of channel from 69 to 21 in order to place this facility within the core. The within proposal is at the same location as and enjoys significant Grade A pattern overlap with the underlying construction permit.

**Interference analysis.** The following is submitted as an OET 69 Longley-Rice study exhibit for the above-captioned application. The standard Techware, Inc., FCC program is employed.

a. The stations which exhibit contour overlap or short spacing and thus must be studied are:

FCC FILE NUMBER	CALLSIGN AND LOCATION
BLET-19930715KJ	WVER, Rutland VT

b. Listed station receives interference from the within proposal of less than 0.5%.

c. Accordingly, waiver of §74.705 as appropriate is requested.
