

EXHIBIT 8

The following minor changes have been required to facilitate construction of the KMHD FM facility as described in the FCC Construction Permit File Number BPED-19970625ME (CP).

The Antenna Structure Registration Number shown in the CP is 1035120. This antenna structure must be dismantled in compliance with conditions of the Multnomah County building department. In its place, a new tower has been constructed with ASR Number 1207367 and the KMHD FM antenna is mounted on this new antenna structure.

	CP Tower	New Tower
ASR Number:	1035120	1207367
Height of radiation Center above ground:	210 m	205
Height of radiation center above mean sea level:	532 m	528
Height of radiation center above average terrain:	441 m	437
