Re: Homeslice Media Group, LLC (HMG)
KKLS(AM), Rapid City, South Dakota
Facility Identification Number: 61320
Special Temporary Authority (STA)
BSTA-20190429ABG

Dear Mr. Kinney:

This is in reference to the request filed on April 29, 2019. HMG requests a further extension of the STA granted on June 7, 2016, to continue operating with parameters at variance to allow time to file the required FCC Form 301 and 302 applications to make permanent changes.¹ In support of the request, HMG states that it plans to file the applications due to problems caused by nearby power lines installed back in 2016.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and HMG may continue to operate with parameters at variance using reduced power while maintaining all monitor points within licensed limits. HMG must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure

¹ KKLS(AM) is licensed for DA operation on 920 kHz with 5 kW day and 0.111 kW night, using different patterns.

guidelines. *See* 47 CFR § 1.1310.

This authority expires on **November 1, 2019**.

Sincerely,
