

EXHIBIT 10 – SPECIAL OPERATING CONDITIONS

The construction permit specifies two special operating conditions:

1 Prior to commencing program test operations, FM Translator or FM Booster permittee must have on file at the Commission, FCC Form 350, Application for an FM Translator or FM Booster Station License, pursuant to 47 C.F.R. Section 74.14.

2 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

Condition (1) is satisfied by the filing of the instant application. The licensee will coordinate with other users of the site to comply with applicable guidelines and regulations regarding non-ionizing radiofrequency energy exposure, thus satisfying condition (2).
