

**Request for Special Temporary Authorization**

Cumulus Licensing LLC (“Cumulus”), pursuant to Section 73.1635 of the Commission’s rules, hereby requests a special temporary authorization (“STA”) for radio station KBBY-FM, Ventura, California (Facility ID 7745) for a period of 180 days.

Station KBBY-FM is licensed to operate on Channel 236 with an effective radiated power of 12.5 kW at 267 meters height above average terrain. The requested STA is necessary as a result of water damage at KBBY-FM’s transmitter site. The station is currently operating with a back-up transmitter at eight percent (8%) of its normal authorized power.

For the reasons stated herein, Cumulus respectfully requests an STA for a period of 180 days pursuant to Section 73.1635 of the Commission’s rules to operate KBBY-FM at its authorized transmitter site at reduced power until it is able to return the station to licensed power. The requested STA will serve the public interest because it will enable KBBY-FM to continue to serve the residents of Ventura and the surrounding area until Cumulus can return the station to full licensed power.
