

EXHIBIT 9 Special Operating Condition 2

KLUC-FM FAC ID 47744

FCC 302 Application

October 8, 2014

CBS Radio Stations Inc.

CBS owned station, KXNT(AM) has a construction permit, BP-20080228ABD, to re-locate to the, KXST(AM), also CBS owned, site. CBS is in the process of implementation of the KXNT construction permit which includes the construction of 6 new towers at the KXST shared site.

The KLUC-FM shared auxiliary antenna¹ is located on 1 of the 6 new towers. The tower is base insulated and detuned at the KXST operating frequency. Prior to construction of the 1st new tower, modeling was done and, upon erection, detuning apparatus was designed and installed on the tower. Before and after monitor point readings were made and it was confirmed that no adverse effects to the KXST pattern resulted.

At the conclusion of construction of all of the remaining towers, CBS will file license applications for both KXST(AM) and KXNT(AM) utilizing the MOM procedure.

¹ The auxiliary antenna will be shared with CBS owned stations KXNT-FM, KMXB, KLUC-FM, and KXTE.
