

***REQUEST FOR EXTENSION OF
SPECIAL TEMPORARY AUTHORITY***

**AM BROADCAST STATION KCCV
OVERLAND PARK, KANSAS
760 KHz
FACILITY ID: 6491**

BOTT BROADCASTING COMPANY

FEBRUARY, 2017

REQUEST FOR SPECIAL TEMPORARY AUTHORITY

The following engineering statement has been prepared for **Bott Broadcasting Company** ("BBC"), licensee of AM broadcast station KCCV at Overland Park, Kansas, and are in support of their request for special temporary authority to operate that facility with parameters at variance.¹

Under BP-20140729ACZ, Entercom License, LLC ("Entercom"), was granted a construction permit to relocate KMBZ at Kansas City, Missouri. That application specified use of the KCCV antenna site under a duplex arrangement with BBC. The installation of the duplex equipment, including filters, will commence the week of February 20, 2017. As a result of this construction at the KCCV site, BBC respectfully requests that the Commission grant it a special temporary authority to operate KCCV with parameters at variance, while maintaining monitor point field strength values within authorized limits.²

Upon completion of the KMBZ construction, Entercom is expected to file a license application based on a moment method proof. In addition, BBC will also be filing a companion application to convert from a traditional proof of performance to a moment method proof of performance. Due to the necessary construction time, BBC respectfully requests this temporary authority be granted for a period of no less than 180 days. It is believed that all activities related to the construction of KMBZ will be completed within this period.

¹ The Facility ID for KCCV at Overland Park, Kansas is 6491.

² This request for STA relates to the Entercom filed STA request under FCC File No. BSTA-20170209AAE.

A grant of this request would not constitute a significant environmental impact, and would be exempt from environmental processing. The operation with parameters at variance would not increase the existing environmental impact already present from the facility.

The preceding statement has been prepared by me, or under my direction, and is true and accurate to the best of my belief and knowledge.
