

RF Exposure Statement

The facility proposed in this application is for post DTV transition operation and will replace the current digital facilities. The current digital operation on channel 58 has an ERP of 1,000 kW. The new DTV facility will operate on channel 26 at the same elevation as the current DTV antenna but with an ERP of 810 kW. At that power level there is no significant change in RF radiation in the vicinity of the tower and is within the accepted limits. All other current safeguards related to the site with regard to both workers and the general public will remain in place.
