

Request for "Permit-But-Disclose" Status

The instant application and other concurrently-filed transfer of control applications request Commission consent to the transfer of control of authorizations issued by the Commission to indirect licensee subsidiaries of Cumulus Media Partners, LLC. The parties to this application (collectively, the "Applicants") hereby request that this application be accorded "permit-but-disclose" status under the FCC's *ex parte* rules. *See* 47 C.F.R. §1.200 *et seq.* Designation as a permit-but-disclose proceeding would serve the public interest by permitting a full exchange on the issues under consideration by the Commission. Classifying the proceeding as permit-but-disclose also would facilitate the development of a complete record upon which a well-reasoned decision can be made. Accordingly, the Applicants request that the Commission find that the permit-but-disclose *ex parte* procedures applicable to non-restricted proceedings will govern its consideration of this transfer of control application. *See* 47 C.F.R. §1.1206.
