Baton Rouge, LA 70826-2550

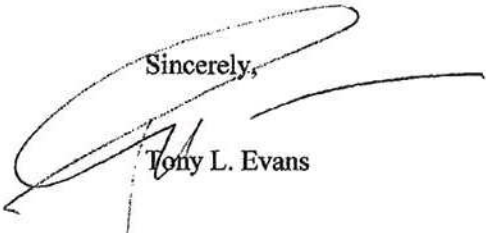

Dear David,

The WFFL station installation was completed on December 9th in the year 2006. The Shively Labs antenna was constructed and installed according to the details outlined by previously named manufacture.

A representative of a Land Surveying company Ritchie-Jenkins & Associates was employed to determine the orientation was set at a heading of 255 degrees.

Tony Evans is a consulting engineer from Lafayette Louisiana with 23 years in the Broadcast Engineering/electronics field.

Sincerely,

Tony L. Evans
