In re: WFJS-FM, Freehold, NJ  
Facility ID No.: 174562  
Domestic Church Media Foundation  
BPED-20140522AGT

Dear Applicant:

This letter is in reference to the above-captioned minor change application to modify the broadcast facilities of WFJS-FM.

An engineering study of the application reveals that the proposed directional antenna violates 47 C.F.R. § 73.510(a). Section 73.510(a) states that noncommercial educational stations must comply with 47 C.F.R. § 73.316(b). Specifically, Section 73.316(b)(2) states that "[d]irectional antennas used to protect short-spaced stations pursuant to § 73.213 or § 73.215 of the rules, that have a radiation pattern which varies more than 2 dB per 10 degrees of azimuth will not be authorized." It has been the Commission's longstanding policy to apply the 2 dB/10° limitation to noncommercial educational stations protected under the analogous contour overlap section, 47 C.F.R. § 73.509. The proposal violates this requirement. The proposed radiation pattern varies by as much as 2.1 dB per 10 degrees between the azimuths of 340° T and 350° T. It is necessary to note that these azimuths are in the direction of a station where a directional antenna is necessary to prevent any prohibited overlap.

In light of the above, Application BPED-20140522AGT is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 CFR § 0.283.

Sincerely,

Rodolfo F. Bonacci  
Assistant Chief  
Audio Division  
Media Bureau
