

EXHIBIT 12 – Lack of Contour Overlap & Waiver Request (74.1235(b)(2))

The following study reveals the lack of any contour overlap with any relevant 1st, 2nd, 3rd adjacent and I.F. frequencies.

Terrain database is NGDC 30 SEC, R= 73.215 qualifying spacings or FCC minimum spacings in KM, M= Margin in KM
In & Out distances between contours are shown at closest points. Reference Zone = 2, Co to 3rd adjacent.
Ant Column: (D= DA Standard, Z= DA 73.215, N= Not DA 73.215, _= Omni), Polarization (C,H,V,E), Beamtilt(Y,N,X)
"*"affixed to 'IN' or 'OUT' values = site inside protected contour.
« = Station meets FCC minimum distance spacing for its class.

Facility being modified.

Waiver Request

With this application, Western Inspirational Broadcasters, Inc. (WIBI) is seeking a waiver of the power limitations as set forth in CFR 74.1235(b)(2), and continued “grandfathering” to retain the currently authorized ERP.

In support of this request, WIBI submits the following:

1. There will be no change in the location, antenna pattern, or center of radiation of the proposed translator.
2. A reduction in power would significantly reduce the established service area of this translator that has been in operation continuously since October of 1995.
