Re: WOCL(FM), Deland, Florida  
CBS Radio Stations, Inc.  
Facility ID No. 10138  
File No. 20181011ABK

**Request for Extension of Experimental  
Authority**

Dear Counsel:

The staff has under consideration the above-referenced October 11, 2018, request for extension of experimental authority<sup>1</sup> submitted on behalf of CBS Radio Stations, Inc. (CBS Radio), licensee of commercial FM station WOCL(FM), Deland, Florida,<sup>2</sup> to permit WOCL to continue to conduct testing of hybrid digital FM in-band on-channel (IBOC) operation with asymmetric power levels in the digital sidebands. The extension of experimental authority is requested pursuant to Section 5.203 of the Commission's Rules.<sup>3</sup>

The request states that CBS Radio is seeking continued experimental authority to operate WOCL with lower sideband (LSB) digital effective radiated power (ERP) of -14 dBc<sup>4</sup> and upper sideband (USB) digital ERP of -10 dBc. In support of the extension request, as required, CBS Radio submitted an interim report of the methodology used and results obtained during the current experimental operation. CBS Radio states therein that it has noticed a substantial improvement in its reception in the outer fringe of the signal, as well as indoor reception. Finally, CBS Radio indicates that there have been no complaints of interference from any party.

---

<sup>1</sup> File No. 20170905ABE (granted 9/25/2017)

<sup>2</sup> File Number BMLH-20170905AAQ

<sup>3</sup> 47 CFR § 5.203 (Section 5.203).

<sup>4</sup> Decibels relative to analog carrier.

The CBS Radio request for extension of experimental authority for WOCL(FM) meets the requirements for experimental operations set forth in Section 5.203. Accordingly, the extension request is **HEREBY GRANTED**. This experimental authority expires on **September 25, 2019**. This authority is specifically conditioned on the lack of objectionable interference. A report detailing the methodology employed and the results obtained must be submitted within 90 days following the conclusion of the experimental operation. Any request for further extension of this experimental authority should be filed at least 30 days prior to the expiration date of the authority. Additionally, an extension request must include an interim report detailing the progress of the experimental operation as of the filing date of the request.

Sincerely,

Rodolfo F. Bonacci
