

KAUT-TV, Oklahoma City, OK (50182)

**Exhibit 4
FCC Form 316
Section II, Paragraph 6**

As explained in Exhibit 10, the instant application involves a *pro forma* internal reorganization to be consummated contemporaneously with the closing of the transfer of control of Viacom Stations Group of Oklahoma City LLC (“V-Oklahoma City”), licensee of KAUT-TV, Oklahoma City, OK, from the existing holders of the membership interests in the licensee to NYT Broadcast Holdings, LLC (“NYTB”), the parent of the proposed Assignee in this short-form application. Thus, the instant Form 316 application reflects the ownership of Assignor (referred to herein as “V-Oklahoma City (New)”) as a subsidiary of NYTB, and the proposed change is contingent on the FCC’s prior approval of the pending FCC Form 315 application, BTCCT-20050916AAK, for the transfer of control of V-Oklahoma City to NYTB. As an internal reorganization, there is not any consideration or agreement for the proposed *pro forma* transaction.
