July 29, 2003

Desert Hot Springs, CA
K288DR, BPFT-20030319AEX
Fac ID #72006

The outstanding Construction Permit for K288DR issued July 22, 2003 contains as condition #3, the requirement for antenna impedance measurements on the antenna pattern of broadcast station KXPS(AM), Thousand Palms, CA.

A letter (shown under this Exhibit) is being submitted to the Commission for the removal of this stipulation since this station has been on the air for many years and the transmit cable did not change.
