

APPLICATION FOR STATION LICENSE
APEX BROADCASTING, INC.
WALJ RADIO STATION
CH 286A - 105.1 MHZ - 2.60 KW
NORTHPORT, ALABAMA
September 2011

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Apex Broadcasting, Inc. ("Apex"), permittee of radio station WALJ, Channel 286A, Northport, Alabama. Apex holds an outstanding permit to construct a new FM facility at Northport, Alabama (BNPH-20110617ACL). Apex herein submits a license application to cover the outstanding permit. A calculation of the transmitter power output of the WALJ transmitter is attached as Exhibit A.

There are two conditions/restrictions on the WALJ permit. Condition #1 indicates that the WALJ permit was issued pursuant to §73.215 of the rules (contour protection). Apex acknowledges this condition. The second condition states that Apex will reduce the power of WALJ, or cease operation in coordination with other users of the tower, to protect persons having access to the site from radio frequency electromagnetic fields in excess of FCC guidelines. Apex will comply with this condition.

Based on the foregoing, it is believed that WALJ is in compliance with the Commission's rules and that all conditions have been met.
