Program Test Authority

Dear Applicant:

This letter is in reference to WJFK-FM's request for program test authority ("PTA") filed November 21, 2014, and the simultaneously filed application for license to cover Construction Permit BPH-20121106AAQ. The PTA request included exhibits demonstrating compliance with special operating conditions regarding the directional antenna.

A review of WJFK-FM's request for PTA reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BPH-20121106AAQ, and the provisions of 47 C.F.R. § 73.1620. Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on WJFK-FM's license application. The effective radiated power is 20.0 kilowatts (H&V) and the transmitter power output is 12.5 kilowatts.

Sincerely,

Rodolfo F. Bonacci
