

WSKG Public Broadcasting  
P.O. Box 3000  
Binghamton, New York 13902  
(607) 729-0100  
Attn: Gary Reinbolt, CEO

Dear Mr. Reinbolt

This letter will serve as a document needed to fulfill one of the conditions of the construction permit for WSKG-DT.

Partial proof of performances as defined by part 73.154(a) of the FCC Rules and Regulations were conducted both before and after the erection of the WSKG-DT facility as authorized in Permit File Number BMPEDT-20030110ACX. The results indicate no adverse effects by the new WSKG-DT facility on the directional pattern of WNBF. It can be concluded therefore the new facility has in no way distorted the directional pattern of WNBF.

Sincerely,

A handwritten signature in black ink, appearing to read "Lawrence W. Hodge".

Chief Engineer, WNBF Radio
