

KBQI

Facility ID No: 4706

Albuquerque, New Mexico

This application seeks an additional auxiliary antenna for station KBQI. The proposed location is upon an existing tower which does not require registration and was constructed prior to 2001. Below is a map demonstrating compliance with Section 73.1675.

Due to the complexity of the surrounding terrain, and other stations, KBQI will take power density measurements prior to filing of an application for license to demonstrate compliance with Section 1.1306.
