There is just under 2 km of overlap with 2nd adjacent WZCY-FM. The attached maps show that the enclosed area is entirely unpopulated, and the only structures are the numerous transmitter buildings, the access road and the towers themselves. The dots on the closeup map are population centroids, as are the + signs next to the numbers in the Probe output. These are outside the 94 dBu F(50,10) contour. This certifies that there is no population hidden under the foliage. Since there is no population in the area of interference, a no-population waiver is requested.

#: 2
Dist: 0.01
Az: 176
ASR 1254286
NAD27: 402116 755357
