To whom this concerns:

Re: Affidavit for Construction Permit for WTPG Whitehouse, OH -  
FID#122008 BPED- 20140310ADP

I supervised the build of BPED- 20140310ADP, WTPG WHITEHOUSE, OH on the behalf of Penfold Communications, Inc., owner of the above station. The build was completed on Wednesday the 18<sup>th</sup> of 2016. The Tower crew used was Wave-Comm of Sun Prairie, WI and was directly supervised by me.

I have over 20 years of experience with 15 years as a supervisory broadcast engineer on over 90 FM full power and translator builds for Calvary Radio Network, CSN International (Santa Anna), Penfold Communications, Calvary Chapel Costa Mesa and other radio ministries. I am currently the president, CEO and supervisory engineer of the Calvary Radio Network.

WTPG was built according to the guidelines set forth in the CP and antenna manufacture's specifications with the use of a certified surveyor who will be attaching his statement of participation.

Respectfully,

  
Jim Motshagen
