In re: WRSO(AM), Orlovista, FL  
Facility ID No. 129548  
Application No. BP-20160523AAT

**Finding of No Significant Impact**

Dear Mr. Woodworth:

This letter concerns the referenced application of Star Over Orlando, Inc. (Star), as amended, for minor modification of the facilities of Station WRSO(AM), Orlovista, Florida (the "Station") which proposes to change the Station's antenna site and technical facilities. In the amended application, Star proposes to construct two new 60.7-meter (199-foot) towers (with concomitant ground-level equipment) at the proposed site from which Star will operate both daytime and nighttime facilities for WRSO(AM). Because the proposed transmitter location is located in a flood plain, Star submitted an Environmental Assessment ("EA") as required by Section 1.1307 of the Commission's Rules (the "Rules")<sup>1</sup> on December 8, 2016. *Public Notice* of the filing of the EA was issued on March 9, 2017.<sup>2</sup> The Commission received no comments in response to the *Notice*.

Upon examination of the EA, we find that the information supplied satisfies the requirements specified in Section 1.1311 of the Rules.<sup>3</sup> Accordingly, pursuant to Section 1.1308 of the Rules,<sup>4</sup> we find that the WRSO(AM) towers will have no significant environmental impact on the quality of the human environment, and no further environmental processing is warranted. Moreover, we have examined the captioned application and find that it complies with all pertinent statutory and regulatory requirements. Accordingly, the application (File No. BP-20160523AAT) of Star Over Orlando, Inc. for modification of the facilities of Station WRSO(AM), Orlovista, Florida, IS GRANTED.

Sincerely,

  
Peter H. Doyle  
Chief, Audio Division  
Media Bureau

cc: Star Over Orlando, Inc.
