Re: Citizen's TV Digital Flash Cut and Displacement Applications

Ladies and Gentlemen:

Blue Mountain Broadcasting Association understands that Citizen's TV and the City of Milton Freewater are applying for a displacement application of K55GC to Channel 28D and a flash cut application for K29EG to Channel 29D.

These applications show interference to our station K28FT, Walla Walla, WA. However, the interference is minor and we understand that Citizen's TV and the City of Milton Freewater will cooperate to work out any issues that arise from the grant of these digital applications.

Consequently, Blue Mountain Broadcasting Association has "No Objection" to the grant of channels 28 and 29 to the City of Milton Freewater and Citizen's TV respectively.

Sincerely,

James N. Forsyth  
Secretary of the Board
