HILCO COMMUNICATIONS, INC.
KAYD-FM (AUX) RADIO STATION
CH 269C3 - 101.7 MHZ - 0.110 KW
SILSBEE, TEXAS
November 2005

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Hilco Communications, Inc. ("HCI"), licensee of radio station KAYD-FM, Channel 269C3, Silsbee, Texas. HCI has an outstanding permit to construct a new auxiliary FM antenna system for KAYD-FM (BXPB-20051103ABR). HCI herein submits a license application to cover the outstanding permit. A calculation of the transmitter power output of the KAYD-FM transmitter is attached as Exhibit A.

There is one operating condition/restriction on the KAYD-FM auxiliary permit. The condition states that HCI will reduce the power of the KAYD-FM auxiliary antenna, or cease operation as needed, to insure that persons with access to the tower will not be exposed to radio frequency radiation levels in excess of the Commission's guidelines. HCI will comply with this requirement. Based on the foregoing, it is believed that all of the conditions on the KAYD-FM auxiliary antenna construction permit have been satisfied.
