File No. BNPL-20131114BCO

Dear Applicant:

The staff has under consideration the above-captioned application for a new low power FM station, as amended.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807. Specifically, the site proposed is located 28.46 kilometers from the licensed facility of KZXM(FM), Bullard, TX (BLH-20120316ACQ). The required spacing pursuant to § 73.807 is 29 kilometers. The application fails to address this defect.

Accordingly, in light of the above, application BNPL-20131114BCO is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
