

APPLICATION FOR STATION LICENSE
JOSEPH W. SHAFFER
KTDF-LP LPTV STATION
CH 23- - (524-530) MHZ - 12.0 KW
SAN ANTONIO, TEXAS
May 2011

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Joseph W. Shaffer ("Shaffer"), licensee of KTDF-LP, Channel 18-, San Antonio, Texas. Shaffer holds an outstanding permit to make changes to KTDF-LP, specifically a change in channel to Channel 23- (BDISTTL-20100122AAD). This instant application seeks a license to cover the outstanding permit for KTDF-LP. Attached as Exhibit A is a calculation of the transmitter output power for the KTDF-LP transmitter.

There is one special operating condition or restriction listed on the KTDF-LP construction permit. The condition states that the transmitter being used for KTDF-LP has been type accepted or meets the FCC's type acceptance requirements at a visual carrier frequency plus or minus 1 kHz. The KTDF-LP transmitter meets these requirements.

Shaffer will also reduce the power of the KTDF-LP facility to allow access near the LPTV antenna so that no persons are exposed to level of RF energy higher than those allowed under the Commission's rules. Based on the foregoing, it is believed that KTDF-LP is operating pursuant to the Commission's rules.
