

TECHNICAL EXHIBIT
APPLICATION FOR AUXILIARY STATION LICENSE
RADIO STATION WFRG-FM (FACILITY ID 50362)
UTICA, NEW YORK
CH 282 10 KW 124M

Compliance with special conditions of Construction Permit
File Number BXPB-20060504ABA

Access to the tower is restricted to authorized personnel by an effective fence with a locked gate. RFR warning signs are posted on each side of the fence and at the gate.

Using the FCC FM Model program it was determined that the worst case power density level will not exceed 9% of the FCC's recommended limit of 0.2 mW/cm^2 for FM frequencies in an uncontrolled environment.
