

**MINOR CHANGE APPLICATION**  
**MILLER COMMUNICATIONS, INC**  
**W278AV FM TRANSLATOR STATION**  
**CH 276D - 103.1 MHZ - 0.250 KW**  
**SUMTER, SOUTH CAROLINA**  
**May 2009**

**TECHNICAL STATEMENT**

This technical statement was prepared on behalf of Miller Communications, Inc. ("MCI"), licensee of FM translator station W278AV, Channel 278D, Sumter, South Carolina. MCI seeks to make minor changes in the facilities of W278AV by changing the channel from Channel 278D to Channel 276D at its licensed site. No other changes are proposed. The proposed W278AV facility will remain a fill-in translator for FM station WWKT-FM, Channel 257C3, Kingstree, South Carolina. The 60 dBu contour of the proposed W278AV facility will be inside the WWKT-FM 60 dBu contour, as shown on Exhibit A.

As the change of channel for W278AV will be implemented at its existing site with no change to the tower structure, the Federal Aviation Administration was not apprised of this proposal. The existing tower structure has been registered with the Commission and assigned Antenna Structure Registration Number 1044608.

Exhibit B demonstrates that the proposed W278AV translator will not cause interference to any full service station, existing or proposed FM translator station, or any LPFM facility.

All other necessary documentation used to certify the technical portion of FCC Form 349 has been forwarded to MCI and is available to the Commission upon request. All data regarding broadcast facilities was extracted from the CDBS database. We assume no liability for errors or omissions in that database which may be adverse to the requests contained herein.
