**CROSS COUNTRY COMMUNICATIONS, LLC**  
**WLKW-FM RADIO STATION**  
**CH 237A - 95.3 MHZ - 0.43 KW**  
**CELORON, NEW YORK**  
**December 2011**

**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Cross Country Communications, LLC ("Cross Country"), licensee of radio station WLKW-FM, Channel 237A, Celoron, New York. Cross Country has an outstanding permit to construct an auxiliary facility for WLKW-FM (BXPB-20111121AOR). Cross Country herein submits a license application to cover the outstanding WLKW-FM permit.

There are two operating conditions/restrictions on the WLKW-FM permit. Condition #1 states:

*"A license will not be granted for this auxiliary facility authorized herein until a license for the main facility is granted to cover construction permit BNPH-20110630ADZ."*

An application for a license to cover BNPH-20110630ADZ has been filed (BL-20111129DUV).

Condition #2 states:

*"The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radio frequency electromagnetic fields in excess of FCC guidelines."*

Cross Country will comply with this condition.

Based on the foregoing, it is believed that WLKW-FM Auxiliary has been constructed in compliance with the Commission's rules and that all conditions have been met.
