

KMBH-FM, HARLINGEN, TX**EXHIBIT 1 - NARRATIVE****ENGINEERING STATEMENT**

RGV Educational Broadcasting, Inc. ("RGV") is licensee of non-commercial-educational KMBH-FM, Harlingen, Texas (BLED-19910509KB, FCC ID Number 56081). The KMBH tower, ASRN 1046271, was destroyed in June by Hurricane Alex. RGV has been able to locate temporary tower space on ASRN 1214446, which is located nearby. RGV requests a Special Temporary Authorization to operate KMBH on this tower until reconstruction of the KMBH tower is complete, as detailed in the instant application.

Attached to this Exhibit is a contour map showing that the RGV proposal would not result in the predicted 60 dBu F(50,50) contour exceeding the licensed contour. The RGV proposal thus meets the requirement regarding auxiliary antennas contained in 47 CFR §73.1675(a)(ii). Exhibit 3 contains a study of the radio-frequency radiation impact of the RGV proposal, showing that the proposal meets the exposure requirements of 47 CFR §1.1310. RGV affirms that transmission will be suspended as necessary to prevent exposure to workers in excess of the cited regulation.

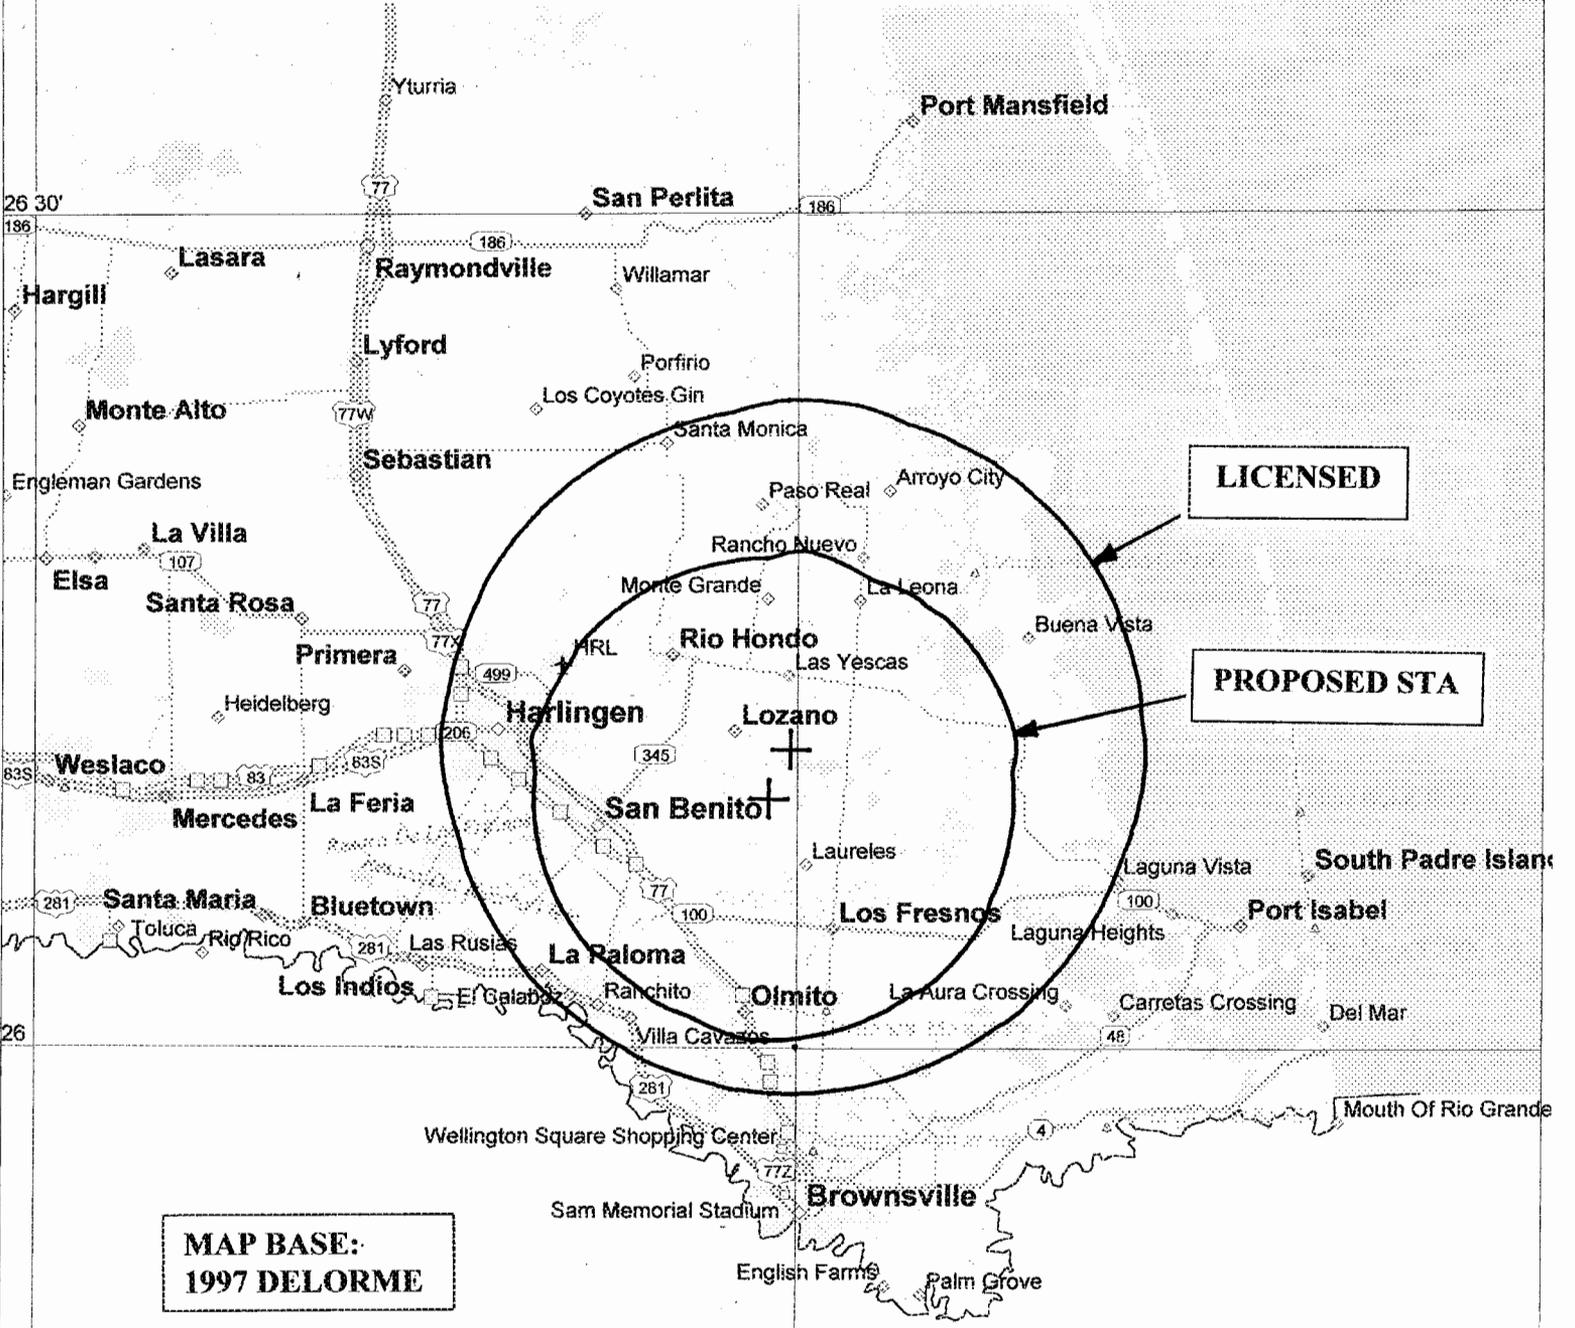

The above and attached information is true and correct as to my knowledge and belief.
