

Agreement of Understanding Between

WCTV, Inc. and K-LOVE Radio/Educational Media Foundation

This agreement is entered into as of the 22 day of October ²⁰⁰³ by and between WCTV and Educational Media Foundation, licensee of WKVH-FM, et al, a non-commercial FM station (hereinafter referred to as EMF).

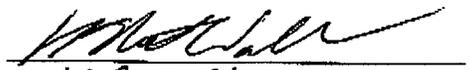

WCTV and EMF hereby enter into this agreement in accordance with the requirements specified by Federal Communications Commission Rules and Regulations Part 73.525.

WCTV is concerned with protecting our members and viewers from FM interference, both now and in the future. WCTV will agree to the proposed Monticello EMF transmitter application under the following criteria:

1. Frequency is 91.9 MHz.
2. ERP is 1.5 KW horizontal and vertical polarization. EMF will agree to file for a power reduction if it is found that a widespread interference problem occurs with WCTV.
3. Antenna elevation shall not exceed 451 meters AMSL and shall be located at coordinates: 30° 40' 13", 83° 56' 26".
4. EMF specifically agrees to remedy properly verified cases by competent, trained technical personnel, of off-the-air EMF interference to the WCTV signal within the affected WCTV coverage area. Notch type coaxial cable filters equivalent to Microwave Filter Company Model 5KFM-91.9 will be obtained as needed to remedy specific cases in properly installed TV receiver systems. EMF shall act in good faith to expeditiously assess and remedy bona fide problems of interference.

For WCTV, Inc.

For Educational Media Foundation
