

**Exhibit 8**  
**Section III**  
**Question 8**

The Construction Permit authorized an ERP of 5.1 KW. The facility has been constructed to use an ERP of 11 KW. Since the Construction Permit was granted, KVMX\_FM has been up graded to a C1 class station. This upgrade permits KVMX to increase the ERP of this auxiliary site.

Applicant believes this change is a permissive change authorized under CFR 47, Part 73.1675 (c1) and a modification to the Construction Permit is not required. Applicant notes that conditions listed under this rule part and certifies that:

1. The facility operated at 11KW ERP complies with 73.1675(a)
2. The facility complies with the Commissions guidelines on radiofrequency electromagnetic exposure 1.1306. as can be seen in the attached revised REF Exhibit.
