

Commercial Primary Station

Educational Media Foundation ("EMF") is the proposed transferee of primary station, KGZH, Nyssa, OR. KGZH is currently a commercial station, but as part of its application, EMF has filed to change KGZH to non-commercial status. However, whether or not KGZH is commercial, EMF has prepared this application as a fill-in translator, and therefore the 60 dBu contour of the translator is contained within the 60 dBu F(50,50) contour of KGZH. Accordingly, the provisions of 74.1232(d) do not apply.
