Program Test Authority

Dear Applicant:

This letter is in reference to WVPS's request for program test authority ("PTA") filed October 18, 2006 and the simultaneously filed application for license to cover Construction Permit BPED-20060322ADO. The PTA request included exhibits demonstrating compliance with special operating conditions regarding the radiofrequency electromagnetic field strength measurements.

A review of WVPS's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BPED-20060322ADO, and the provisions of 47 C.F.R. § 73.1620. Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on WVPS's license application. The effective radiated power is 49 kilowatts (H&V) and the transmitter power output is 25 kilowatts.

Sincerely,

Rodolfo F. Bonacci
