Program Test Authority

Dear Applicant:

This letter is in reference to KVDU's request for program test authority ("PTA") filed June 17, 2013 and the simultaneously filed application for license to cover Construction Permit BXPB-20120801AHG. The PTA request, as amended February 24, 2014, included exhibits demonstrating compliance with the FCC radiofrequency electromagnetic field exposure guidelines special operating conditions.

A review of KVDU's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BXPB-20120801AHG, and the provisions of 47 C.F.R. § 73.1690(c)(2). Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on KVDU's license application. The maximum effective radiated power is 1.2 kilowatts (H&V) and the transmitter power output is 0.98 kilowatt.

Sincerely,

Rodolfo F. Bonacci
Assistant Chief
