

FCC Form 301
Radio Station KYRT(FM),
FCC Facility ID No. 165378
March 2010
Attachment 1 to Exhibit 8

STATEMENT RE CHARACTER ISSUES

The applicant, Munbilla Broadcasting Properties, Ltd. (*MBPL*), is a sister entity of Munbilla Fort Hood, Ltd. (*MFHL*). Both entities are under common control.

MBPL is the licensee of station KBEY, Channel 223A, Burnet, Texas, FCC Facility ID No. 40764, and holds authorizations for other facilities, as specified elsewhere in this Application.

MFHL is the licensee of radio station KHLE(FM), Channel 295A, Kempner, Texas, FCC Facility ID No. 34948.

MFHL has an application pending, FCC File No. BPH-20080625AAV, for a Construction Permit to make minor modifications to the licensed facilities of station KHLE (the *KHLE Application*).

On August 13, 2009, MFHL filed a minor amendment to the KHLE Application.

On September 3, 2009, BMP Austin License Company, L.P., and Border Media Business Trust (collectively, *Border*), filed an Informal Objection with respect to the KHLE Application, as amended. In the Informal Objection, Border alleges that MFHL's August 13 amendment constitutes a strike filing, an abuse of the Commission's processes, and a material misrepresentation to the Commission.

MFHL and MBPL have responded to the Informal Objection.

The FCC staff has not yet issued a ruling on Border's allegations.
