

## LPFM Channel Floor

This site for this instant application is within a Spectrum-Available 20 minute grid (Please see attached map) for the Pensacola, FL market (Arbitron rank 128) as defined in the LCRA (FCC 12-29). According to LCRA Section 5 the LPFM Channel floor is 5 channels reserved for LPFM window for markets 101-150.

LCRA Appendix B reflects that the Commission determined there are 10 channels available for LPFM applications. Grant of this instant application will leave room for four channels above that specified by LCRA. Our own research indicates there are even more than that available. Nevertheless, we concur with the commission that there are ample channels at this time for more new translators without depleting channels for the future LPFM application window in the Pensacola market 20-degree grid.

Therefore, the instant proposal does not conflict with issues for the LPFM proceeding.
