

**REDACTED FOR PUBLIC  
INSPECTION**

FCC Form 314  
July 2018

**Supplement to Multiple Ownership Showing**

Gray hereby supplements the Multiple Ownership Showing that was attached to the original application seeking the Commission's consent to the assignment of KDLT-TV, Sioux Falls, South Dakota, and KDLV-TV, Mitchell, South Dakota, from Red River to Gray. The applicants demonstrated that the assignment of KDLT-TV and KDLV-TV is in the public interest, because Gray would increase efficiencies, make substantial capital investments, and become a more effective competitor in the Sioux Falls DMA. Since filing the initial application, Gray has determined that if the Commission grants the proposed assignment of the stations, Gray will make the following investments in the programming of the stations within eighteen months of closing on the transaction:

- 
- 
- 
- 

Gray submits that the above commitments from Gray multiply the already substantial public interest benefits that will flow from the assignment of KDLT-TV and KDLV-TV. Clearly, grant of the assignment will dramatically enhance local television service to the television viewers in the Sioux Falls DMA while also contributing to the vibrant diversity in the market and promoting competition with the dominant station in the market. Accordingly, Gray respectfully requests that the Commission grant the assignment without delay.
