

Re: Summit County application:  
BNPTT 20000828BDU  
FACILITY ID-129879

KUED understands that Summit County has an application for channel 39 at Park City. At this same site we own K25DL. We understand the fourteen-channel taboo. However, both are operating at the same site at the same power level and maintained by the same technician and have a record of working with no interference. We therefore support Summit Counties application of 39, facility id 129879. If interference becomes a problem in the future we will work with Summit County to eliminate it.

Sincerely,

A handwritten signature in cursive script, appearing to read "Ron Stearns".
