

Three Angels Broadcasting Network
 Dan Peek—Engineer
 P.O. Box 220
 West Frankfort, Illinois 62896
 May 9, 2011

In evaluating the proposed Digital CP mod for W58GC, FID 67018, an outgoing interference study was executed on the proposed parameters on channel 38(T) with an ERP of 15 kW. The stations listed in the table below showed possible interference. When these stations were evaluated for outgoing interference using the OET-69 Longley Rice methodology with a cell size of 1km and a 0.1km radial spacing, there was zero percent interference present found in each case when rounded to the nearest percent with the following exceptions

W39DD-D FID 183778 which is owned by Three Angels Broadcasting Network and agrees to accept interference.

KTCI-TV FID 178250 which is a rule making application and it is noted that KTCI is operating on channel 23 and will not receive any interference from this application.

Three Angels Broadcasting Network also requests the commission to dismiss earlier displacement application (BDISD-20100601AHC) on channel 51 due to King Street Wireless, LP's petition to deny as well as the general petition to deny any further channel 51 applications.
