Attn: Tom Schlueter

Dear Mr. Schlueter,

This is in response to our discussions recently regarding the proposed sale of the FM Translator at Sheboygan, WI presently owned by the Christian Communication Network. You indicate that due to the ongoing expenses of site rental and electricity you are willing to sell W235AG an existing translator station for WVCY-FM to VCY America for an agreed price of \$1.00.

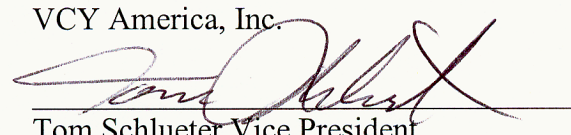

We understand the station is operating according to the parameters indicated on the station license and that the station license has been recently renewed. With your permission we will proceed to arrange for the FCC paperwork to be filed to accomplish this transfer.

Please sign the agreement here and return it to us to be filed with the federal application. This letter is to establish intent to complete this transaction subsequent to FCC approval.
