

## Waiver Request

29 June 2005

Re: K34DW Waiver request to move station more than 10km with a displacement application

K34DW, BLTTL-19960712JB, FID 67023, in addition to being displaced by full power KUTV-DT, BMPCDT20010510AA, FID 35823 has lost its lease at its current location. The proposed location not only offers Three Angels Broadcasting a more favorable rent location but also will be co-located with other television broadcasters so that viewers will be more likely to have their antennas directed toward this location thus better serving the Provo community. This location also puts our assigned community entirely under Grade A, 74dBu, predicted coverage.

The predicted coverage map below shows station K34DW in blue in its existing coverage. The purple contours are for the coverage of the K34DW proposed displacement to channel 43. Inner contours are for Grade A 74 dBu coverage and outer contours are for 64 dBu coverage.

Three Angels Broadcasting respectfully requests that the commission grant this waiver and allow Three Angels Broadcasting to better serve the community and not cause interference to KUTV-DT.

Sincerely,

Daniel N. Peek  
Engineer, Three Angels Broadcasting Network, Inc.
