

§ 73.3555(a) Multiple Ownership Exhibit

This multiple ownership exhibit is submitted to demonstrate that the proposed license transfer of WGZO, Channel 276C3, Parris Island, SC to Apex Broadcasting, Inc. is in compliance with the Commission's multiple ownership rules. Apex is currently the licensee of four FM stations and one AM station in the Charleston, SC Arbitron metro market.

WGZO is not located in or home to any Arbitron radio metro. Because the Charleston, SC Arbitron market is located somewhat close to WGZO, an exhibit showing the principal community contours of WGZO and the five Apex Charleston, SC market stations are shown.

The attached Multiple Ownership Map shows the FCC F(50,50) 70 dBu contour of WGZO in red. The FCC F(50,50) 70 dBu contours of Apex's four Charleston FM stations are shown in black. The FCC 5.0 mV/M daytime contour of WPSO(AM), Charleston, SC is shown in blue. It can clearly be seen there is no overlap of contours between WGZO and any of Apex's Charleston, SC stations. Section 73.3555(a)(1) allows the ownership of a single FM station in all size markets. Therefore it is believed the proposed transfer of WGZO to Apex Broadcasting, Inc. is in compliance with the Commission's multiple ownership rules.

The foregoing technical statement was prepared on behalf of Apex Broadcasting, Inc. by Donald Lynch of Horizon Broadcast Solutions, LLC, its Technical Consultant. Any information contained herein is true and accurate to the best of my belief and knowledge. All data relating to AM and FM facilities was taken from the FCC CDBS database. We assume no liability for errors or omissions in that database which may be adverse to the information contained herein.
