General

As broadcast technical consultants doing business as Reynolds Technical Associates (“RTA”), we have been authorized by Superior Broadcasting of Denver, LLC to prepare the engineering portion of an application for a license (FCC Form 302) for KKCS-FM, Colorado Springs, Colorado.

The Applicant was issued a construction permit (file number BPH-20040106ABD) authorizing construction of the main facility of KKCS-FM. The transmitter facility has been completed as authorized by the construction permit.

Special Operating Condition Number 1
(Human Exposure to Radiofrequency Radiation)
(No Exhibit)

A policy is in effect stating: To prevent excessive human exposure to radiofrequency radiation, the licensee will reduce power or cease operation, whichever is necessary to protect persons having access to the site/tower. This addresses special operating condition 1 of the construction permit.

Special Operating Condition Number 2
(Authorized Antenna)

The installed antenna is an ERI, 8 element, 0.5 wavelength spacing between elements (same as the authorized antenna described on the construction permit).

Conclusion

This statement/application has been prepared for The Applicant by utilizing the information supplied by the Applicant. Careful examination of the information was performed to insure that all documentations were in full compliance with the Rule and Regulations of the Commission. We welcome the opportunity to discuss with the staff of the Federal Communications Commission the engineering data contained in this application. Should any questions arise concerning the information, please contact us.

The following pages are exhibits prepared and assembled in support of the proposed.
