Re: CBS Radio Stations Inc. (CBS)  
KXST(AM), North Las Vegas, NV  
Facility Identification Number: 47745  
Special Temporary Authority (STA)  
BESTA-20170922AAJ

Dear Mr. Ryson:

This is in reference to the request filed on September 22, 2017. CBS requests an extension of the STA granted on March 11, 2016, to continue operation with parameters at variance to allow time to file the required FCC Form 302 application.<sup>1</sup> In support of the request, CBS states that additional time is needed to complete all work and file the application to update all operating parameters.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and CBS may continue to operate with parameters at variance and/or reduced power while maintaining monitor points within licensed limits. CBS must use whatever means are necessary to protect workers

---

<sup>1</sup> KXST(AM) is licensed for operation on 1140 kHz with 10 kW day (ND), and 2.5 kW night (DA).

and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **April 19, 2018**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a cursive 'S'.

Joseph Szczesny, Engineer
