

Exhibit 8
Section III
Question 8

The Construction Permit authorized an ERP of 100KW. The maximum ERP that the transmission system was constructed for is 22.1 KW. The antenna used in the transmission system was changed to a model that is limited to the ERP the system was constructed for.

Applicant believes this change is a permissive change authorized under CFR 47, Part 73.1690 (c8) and a modification to the Construction Permit is not required. Applicant notes that conditions listed under this rule part do not apply.
